Personal Information

Experience

2022

Consultant Trauma & Orthopedic Surgeon

MBBS, FRCS, FACS (USA), FRSM CUEW, MEWI.

February 1999-1999: Queen's Hospital Burton. Locum.

1995 – 1999: Odyssey Orthopaedic Centre, Chandigarh India.

1989 – 1995: Royal Commission Hospital, Jubail, Saudi Arabia

1988 – 1989: West Midlands Area Health Authority

1983 – 1988: Royal Commission Hospital, Yanbu, Saudi Arabia

Medicolegal experience:

Since 2000 I am providing medicolegal reports to various medical agencies and also directly to the solicitors. My claimant/defendant ratio on an average is 85%/15%. It can vary to 80%/20%.

I provide about 800 reports per year. I also see clinical negligence cases. On average one case a month for clinical negligence pertaining to hand injuries, back problems and knees.

Specialism:

Please note that the spine condition, injuries and back pain are my favourite subjects because of my neurosurgical experience for three years during training.

I specialise in hand and wrist injuries. I do attend hand clinic at Pulvertaft hand centre. I also attend regular hand courses to keep up to date with current development in hand and wrist surgery.

I am a fellow of American college. I attend annual clinical congress of American college of surgeons. Also attend British Orthopaedic association. Attend courses organised by British society of surgery of hand (BSSH).

Interests

I am particularly interested to see cases in hand problems, neck problems, lower back problem and knee problems.

The time spent in neurosurgical training has been complimentary to the orthopaedic training with dealing with cases of neck and back pain.
