---

Hi Dr Ghaly,

Please see below from the solicitor:-

To whom it may concern,

We confirm that Dr Ghaly was instructed by our firm as a Defence Medical Expert for a case involving cruelty to a child. We required a report to be prepared to deal with the findings of the prosecution experts and provide an opinion as to causation of injuries.

Dr Ghaly provided a report very quickly in response to our request which was useful to our case. He was then asked to explore further comments and photographic evidence which again was provided promptly.

Dr Ghaly attended Court for the first trial, which ultimately did not proceed due to lack of Court time. Whilst in attendance at Court he was asked to liaise with the prosecution expert and provide a joint report whilst waiting for the trial to begin. This was duly completed and used in evidence.

When the trial did eventually take place, Dr Ghaly once again attended and gave very clear evidence. He was able to explain the reasons for his findings and opinions very well to the Jury.

We are happy to report that our client was ultimately acquitted of all charges.

Yours faithfully,

Janine Clark
